

The World's Only Complete Labor and Delivery Suite

Introducing the first-ever, integrated solution for labor and delivery training, featuring **a complete suite of fully operable, hands-in-the-body simulators** for delivery, C-Section and emergency obstetric procedures.

The Labor and Delivery Suite from Operative Experience.

Finally, a complete and integrated training solution for the entire labor and delivery continuum of care.

RealMom™

Vaginal Delivery

The world's most natural and realistic vaginal delivery simulator.

- + Natural delivery with active, soft tissue birth canal
- + Realistic, soft tissue and accurate internal anatomy
- + Full-body female simulator and full-term baby with unsurpassed realism and lifelike appearance
- + Provides a full-range of delivery procedures including forceps and vacuum assist
- + Postpartum hemorrhage control
- + Instructor control of dilation and delivery progression
- + Physiological presentation and control of maternal and fetal heart rate, fetal heart tones and contractions, pulses, blood pressure and SPO₂

C-Celia™

C-Section

A complete C-Section delivery training system available as a full suite or in custom configurations designed to meet your learning needs.

- + **Fetal Extraction Simulator** – open, post C-Section abdomen enabling difficult delivery maneuvers including forceps and suction assist
- + **C-Section Skills Trainer** – abdominal and incision repair simulator with pregnant abdomen and uterus for incision practice and tissue repair
- + **Emergency C-Section Delivery Simulator** – pregnant abdomen simulator enabling full transverse or vertical emergency C-Section through abdominal wall and uterus with baby, placenta, and pressurized lubrication system with simulated amniotic fluid

Say goodbye to the old, unreliable plastic manikin technology and discover what real, hands-in-the-body simulation looks like. OEI simulators are fully operable and feature incredibly accurate and tactile anatomy, realistic blood and fluids, and are uniquely designed to provide learners with a high-adrenaline, real-world operative experience.

And, with OEI, there's no complicated programming or setups and no simulator down time—because our products simply work.

Postpartum Hemorrhage

Open abdomen simulator for practicing hemorrhage control techniques.

- + Postpartum hemorrhage control trainer with integrated pressurized bleeding and lubrication for repair of complex lacerations and uterine artery injuries
- + Open abdomen with empty, durable, multi-use uterus enables scores of procedures before uterus placement
- + Supports hemorrhage control techniques including Bakri Balloon, B-Lynch suture, Hayman suture and O'Leary Stitch

Emergency Hysterectomy

Training for postpartum and caesarean hysterectomy procedures including hemorrhage control and fully-operable removal of the uterus.

- + Open abdomen with bleeding and integrated lubrication includes durable, flaccid, abdominal wall insert, attachable, partially contracted uterus
- + Model contains a uterus, bladder, ureters and detailed representations of uterine arteries
